

# Much **More** than Your Typical **Chamber**

Greater Pittsburgh Chamber of Commerce members get more than access, networking opportunities and health care benefits – we are *the* advocate for *your* business interests.

Representing small and large businesses across 10 counties, we bring people and organizations together around the critical issues and, through a unified voice, effectively convey the needs and priorities of our region's business community to local, state and federal decision makers -with results that can flow to your bottom line.

## **Five reasons why joining the Greater Pittsburgh Chamber of Commerce is a strategic investment :**

- 1. Health care benefits** – We connect you to a variety of coverage options through our partner, ChamberChoice, which is the only health care insurance provider still extending benefits to single-employee businesses.
- 2. Invitations** — You'll receive invitations to Legislative Receptions and Briefings, Greater Pittsburgh ATHENA Awards Luncheon and Allegheny Conference on Community Development Annual Meeting.
- 3. Information** – You'll receive updates on the important issues affecting your business and the regional business climate.
- 4. At The Center Of It All** – Our members represent the region's key business players, including a critical mass in the urban core.
- 5. Improving our community** – We're on the ground in Harrisburg, PA and Washington D.C., serving as the government affairs liaison for 27 Chambers throughout the 10-county region, and we'll provide you with opportunities to have a personal hand in furthering an advocacy agenda that drives regional prosperity for you and your business.
