

Much **More** than Your Typical **Chamber**

Greater Pittsburgh Chamber of Commerce members get more than access, networking opportunities and health care benefits - we are the region's advocate to improve the economy and quality of life.

Representing small and large businesses across 10 counties, we bring people and organizations together around the critical issues and, through a unified voice, effectively convey the needs and priorities of our community to local, state and federal decision makers - with results that can flow to your bottom line.

Five reasons why joining the Greater Pittsburgh Chamber of Commerce is a strategic investment:

- 1. Health care benefits** – We connect you to a variety of coverage options through our partner, ChamberChoice, which is the only health care insurance provider still extending benefits to single-employee businesses.
- 2. Invitations** – You'll receive invitations to Legislative Receptions/Briefings and Allegheny Conference on Community Development Annual Meeting.
- 3. Information** – You'll receive updates on the important issues affecting your business and the regional business climate.
- 4. At The Center Of It All** – Our members represent the region's key stakeholders.
- 5. Improving our community** - We're on the ground in Harrisburg , PA and Washington D.C., serving over two dozen Chambers throughout the 10-county region via our Regional Advocacy Coalition of Chambers, and we'll provide you with opportunities to have a personal hand in furthering an advocacy agenda that drives regional prosperity for our region.
